## PART IV.,

## "WATER CLAUSES CONSOLIDATION ACT, 1897."

WHEREAS "The British American Dredging Company, Limited," a company incorporated under the "Companies Act, 1897," and which had complied with the provisions of the "Power Companies' Relief Act, 1902," and was in the same position as if it had been specially incorporated as required by Part IV. of the "Water Clauses Consolidation Act, 1897," was granted a certificate dated the 26th day of June, 1903, approving the proposed undertaking of the Company and which was therein stated as follows:—

"The acquisition by purchase or under powers conferred by the 'Water Clauses Consolidation Act, 1897,' of two acres, more or less, of ground situated on the south side of Pine Creek at the foot of Pine Creek Falls, in the Atlin Lake Mining Division of the Cassiar District, which forms part of the mining ground leased to the Pine Creek Power Company, Limited, for the purpose of hydraulic workings. This piece of land is intended to be acquired as a site for the erection thereon of a power-house and the necessary buildings in connection therewith for the generation and distribution by electrical methods, for the operation of a bucket dredge capable of treating three thousand cubic yards daily, for lighting and any other purposes for which such power may be used under the provisions of Part IV. of the 'Water Clauses Consolidation Act, 1897.' The generality of any words in this clause are not to be limited by any words in the same clause or any other part of this certificate.

"For the purpose of the proposed works the Company has acquired from H. W. E. Canavan a record bearing date the 7th day of April, 1900, of one thousand inches of water, to be diverted from Pine Creek above Pine Creek Falls, and which is to be returned to the stream at the Falls."

And in such certificate it was stated that the Company proposed to begin their undertaking by acquiring title to the said site in manner aforesaid, and by commencing the erection thereon of the said power-house; and that the amount of the capital which would be duly subscribed before the Company commenced the construction of its undertaking and works, or exercised any of the powers of the "Water Clauses Consolidation Act, 1897," Part IV., in that behalf was thereby fixed at the sum of \$25,000, being the whole of the capital stock of the Company, and that the difference between the said sum and the amount required to complete the undertaking and works should be raised by the issue and sale of debentures of the Company, such difference being estimated at the sum of \$75,000; and finally, that the time within which the said undertaking and works were to be commenced was fixed at sixty days from the date thereof, and the time within which all the proposed undertaking should be in operation was fixed at six months from the date thereof;

And whereas the Company subsequently found it inadvisable, by reason of the fact that in the judgment of hydraulic expert engineers the location was not a suitable one for the erection of a power-house, to acquire the site for its power-house referred to in and contemplated by the aforesaid certificate, and on advice that such was within its power determined to and did erect the power-house on ground occupied by it under lease for mining purposes, and known as the "Flora Hydraulic Bench Lease," and situate on the north side of Pine Creek and at the foot of Pine Creek Falls, and has applied for the purchase from the Crown of a certain piece of ground comprising 20 acres or thereabouts, including therein the site of the said power-house, which application has been allowed subject to survey, and said power-house and other the works authorised by the aforesaid certificate are now in operation and have been since a date prior to the date fixed for completion by such certificate;

And whereas the Company has applied to the Lieutenant-Governor in Council for an amendment of its certificate so as to show the correct situation of its power-house, and also the district within which the operations of the Company are to be exercised, and also enlarging its powers, and has filed with the Clerk of the Executive Council the documents required by section 85 of the said Act, and a plan of the said locality:

THIS IS TO CERTIFY that the undertaking of the Company as submitted has been approved and that the same is as follows:—

(a.) The acquisition by purchase of 20 acres, more or less, of land described as commencing at a post marked "B. A. D. Co.'s south-west corner," about 500 feet north-easterly from the south-west corner of the "Flora Hydraulic Bench Lease," on the north side of Pine Creek, in the Atlin Lake Mining Division, Cassiar District; thence east 20 chains; thence north 10 chains; thence west 20 chains; and thence south 10 chains to the point of commencement, and which land is now occupied by the Company, and upon part of which, as shown by a plan filed with the Clerk of the Executive Council, the Company has erected a power-house, with plant consisting of two large Stillwell Bierce Turbine wheels and two Westinghouse type of dynamos, with transformers raising to 22,000 volts:

(b.) The acquisition, in addition to a record No. 33 already held by the Company for 1,000 inches of water, which is diverted from Pine Creek above Pine Creek Falls, and is returned to the stream below the Falls, of 5,000 additional miner's inches of water to be taken from Pine Creek at a point about 300 feet below what is known as the Old Junction Bridge across the said Creek, and to be diverted and conducted to the works of the Company by ditch, flume and pipe, and returned to Pine Creek at a point about one-half mile below Pine Creek Falls, and for a record of which the Company has made application:

(c.) The construction at or near the point of diversion of the aforesaid 5,000 inches of water of a reservoir for the purpose of settling the water before its entry into the raceway, and the enlargement of the Company's ditch and flume line:

(d.) The enlargement forthwith of the capacity of the power-house of the Company to utilise the water-power from Pine Creek and convert the same by means of water-wheels and generators into electricity, and such further enlargement from time to time of the said power-house or of the plant thereof as may be deemed necessary to increase the facilities of the Company in furnishing electrical power:

(e.) The operation of the Company's undertaking and works for the generation and distribution of power by electrical methods for mining, lighting and any other purposes whatsoever for which such power may be used under the provisions of Part IV. of the "Water Clauses Consolidation Act, 1897," within the district described as follows:—

Beginning at the intersection of Pearl Street with the shore line of Atlin Lake, in the Atlin Lake Mining Division of Cassiar District, Province of British Columbia; thence northward along the shores of the said Atlin Lake for a distance of  $6\frac{1}{2}$  miles, or thereabouts; thence on a straight line east 24 miles, more or less, crossing *en route* Surprise Lake; thence southward a distance of 23 miles, more or less, crossing Dixie Valley and the tributaries thereof; thence westward 20 miles, more or less, to the eastern shore of the said Atlin Lake; thence northward along the said lake to Pearl street, in Atlin, the place of beginning:

And this is further to certify that the Company propose to commence the works mentioned in paragraphs sub-sections (c) and (d) forthwith, and to complete the same twelve months from the date hereof, at an estimated cost of twenty-five thousand dollars, which sum shall be raised by the issue and sale of debentures of the Company before the said works are undertaken.

Dated this 27th day of July, 1905.

CHARLES WILSON,  
Clerk, Executive Council.
